

KOA-35 SERIES

1 POCKET BASIC COUNTER

The KOA-35 is an extremely compact machine that is also exceptionally cost-saving for banknote processing work. The key quality of the 35 series is its durability. The KOA-35 can hold up just as well as our heavy-duty machines assuring for a long-life expectancy. The KOA-35 has been commended for its accuracy and performance by users. Today worldwide, it is the preferred low-end banknote processing machine.
